America's "Millionaires' Club" now has 10.4 million members - the most ever, according to the latest statistics. And it's a club you can join - much sooner than you might think, says D.R. Barton, Jr., a top trader, television analyst and former hedge fund officer. In his new book, the 10-Minute Millionaire, D.R. has distilled his decades of experience trading the markets into a system so simple that even a new investor can set it up and maintain it in increments of as little as 10 minutes. The 10-Minute Millionaire combines goal-setting, stock-screening and trading

strategies whose ultimate objective is to give you membership in that Millionaires' Club. The system is so simple D.R. has taught it to sixth graders, yet so powerful it can transform even a small starting stake into lifelong financial freedom - in a way that utterly destroys "buy-and-hold" investing. Loaded with step-by-step illustrations and personal stories, the 10-Minute Millionaire takes the powerful secrets of Wall Street insiders and breaks them down into an easy-to-understand blueprint for beating the markets, day after day, week after week. Using an easy three-step process, D.R. walks you through a repeatable and reliable way to identify the stock-market extremes that show up virtually every day. He trains you to properly frame each trade to maximize profit and minimize risk. Finally, he neutralizes the natural biases that lead most traders to financial destruction - and shows you how to book big profits from other trader's irrational miscues. This isn't an algorithmic "black box." It's not "robo-trading." The 10-Minute Millionaire system still requires personal involvement. It still requires commitment. But it squeezes out emotion, filters out the noise, slashes the risk, and maximizes your potential for profits - and also for meaningful wealth. Once you learn the 10-Minute Millionaire way, it's a system you can operate and update in tiny 10-minute increments. Before you know it, you'll be trading better than a seasoned pro. And you'll watch as your "assets" turn into true wealth. And you'll learn the most-valuable lesson of all: Becoming a millionaire doesn't have to be an unattainable dream. Make it a goal, and pursue that goal, and before long that dream will be real.

Outlines a revolutionary approach to building wealth rapidly, counseling readers on how to make the most of limited starting resources while overcoming fear-based obstacles to risk taking, in a guide that also provides recommendations for enjoying and sharing one's wealth ethically. Reprint.

It's solid advice; the kind you rarely get from the talking heads on TV, radio, and the rest of the media. Scott backs it all up with good solid research; this is not his opinion, it's facts, but presented in a way that your Grandmother could understand." - Dr. Barry H. Kaplan, EA, CFP, Chief Investment Officer, Cambridge Wealth Counsel

Jim Paul's meteoric rise took him from a small town in Northern Kentucky to governor of the Chicago Mercantile Exchange, yet he lost it all--his fortune, his reputation, and his job--in one fatal attack of excessive economic hubris. In this honest, frank analysis, Paul and Brendan Moynihan revisit the events that led to Paul's disastrous decision and examine the psychological factors behind bad financial practices in several economic sectors. This book--winner of a 2014 Axiom Business Book award gold medal--begins with the unbroken string of successes that helped Paul achieve a jet-setting lifestyle and land a key spot with the Chicago Mercantile Exchange. It then describes the circumstances leading up to Paul's \$1.6 million loss and the essential lessons he learned from it--primarily that, although there are as many ways to make money in the markets as there are people participating in them, all losses come from the same few sources. Investors lose money in the markets either because of errors in their analysis or because of psychological barriers preventing the application of analysis. While all analytical methods have some validity and make allowances for instances in which they do not work, psychological factors can keep an investor in a losing position, causing him to abandon one method for another in order to rationalize the decisions already made. Paul and Moynihan's cautionary tale includes strategies for avoiding loss tied to a simple framework for understanding, accepting, and dodging the dangers of investing, trading, and speculating.

Internationally bestselling financial advisor David Bach's Automatic Millionaire promotes a revolutionary system for making even the most undisciplined money managers rich. The Automatic Millionaire shows readers how to change their financial practices and even their lives, the simple and automatic way. The book begins with a powerful story about an average Canadian couple — he's a low-level manager, she's a beautician — whose joint income never exceeds \$55,000 a year, yet who somehow manage to own two homes debt-free, put two kids through college, and retire at fifty-five with more than \$1 million in savings. The incredible message Bach delivers is that the key to getting rich is "automating" the way to wealth by "paying yourself first," using automatic funded retirement accounts and
