Asian Americans are a small percentage of the U.S. population, but their numbers are steadily rising—from less than a million in 1960 to more than 15 million today. They are also a remarkably diverse population—representing several ethnicities, religions, and languages—and they enjoy higher levels of education and income than any other U.S. racial group.

Asian American Political Participation is the most comprehensive study to date of Asian American political behavior, including such key measures as voting, political donations, community organizing, and political protests. The book examines why some groups participate while others do not, why certain civic activities are deemed preferable to others, and why Asian socioeconomic advantage has so far not led to increased political clout.
