Bright Air, Brilliant Fire.

In "Bright Air, Brilliant Fire: On the Matter of the Mind," Gerald M. Edelman sides with the biologists who consider it a little parochial to suppose that the existence of the universe depends somehow on brain cells -- tiny sacs of seawater that developed the ability to strike sparks of electricity when predators approach.

"Edelman Review" - Santa Fe Institute

In Bright Air, Brilliant Fire, Gerald M. Edelman accomplishes what seems to be an almost impossible task: He helps the non-scientist to understand the connections between what is known about the mind with what is beginning to be known about the brain. For Edelman, this subject "is the most important one imaginable" because it is charged "with ...
