The value and promotion of peace is reflected on in the seventh chapter, “Paths of renewed encounter”, in which the Pope underlines that peace is connected to truth, justice and mercy. Far from the desire for vengeance, it is “proactive” and aims at forming a society based on service to others and on the pursuit of reconciliation and mutual development (see Par 227-229).

Pope Francis' Encyclical Laudato Si is a worldwide wake up call to help humanity understand the destruction that man is rendering to the environment and his fellow man. While addressing the environment directly, the document's scope is broader in many ways as it looks at not only man's effect on the environment, but also the many philosophical, theological, and cultural causes that threaten the relationships of man ...

Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

TIME Magazine's Person of the Year: Pope Francis Learn about the First Jesuit Pope from America's Leading Jesuit Publisher "Pope Francis by Chris Lowney is that rare and splendid work that leaves you keenly excited and spiritually moved. The writing is lucid, vivid, inviting, and rich. It's a major achievement. I strongly recommend it to any Christian in a leadership role." - Joseph Tetlow, SJ From choosing to live in a simple apartment instead of the papal palace to washing the feet of men and women in a youth detention center, Pope Francis's actions contradict behaviors expected of a modern leader. Chris Lowney, a former Jesuit seminarian turned Managing Director for JP Morgan & Co., shows how the pope's words and deeds reveal spiritual principles that have prepared him to lead the Church and influence our world—a rapidly-changing world that requires leaders who value the human need for love, inspiration, and meaning. Drawing on interviews with people who knew him as Father Jorge Bergoglio, SJ, Lowney challenges assumptions about what it takes to be a great leader. In so doing, he

reveals the “other-centered” leadership style of a man whose passion is to be with people rather than set apart. Lowney offers a stirring vision of leadership to which we can all aspire in our communities, churches, companies, and families.

In this uplifting and practical book, written in collaboration with his biographer, Austen Ivereigh, the preeminent spiritual leader explains why we must—and how we can—make the world safer, fairer, and healthier for all people now. In the COVID crisis, the beloved shepherd of over one billion Catholics saw the cruelty and inequity of our society exposed more vividly than ever before. He also saw, in the resilience, generosity, and creativity of so many people, the means to rescue our society, our economy, and our planet. In direct, powerful prose, Pope Francis urges us not to let the pain be in vain. He begins *Let Us Dream* by exploring what this crisis can teach us about how to handle upheaval of any kind in our own lives and the world at large. With unprecedented candor, he reveals how three crises in his own life changed him dramatically for the better. By its very nature, he shows, crisis presents us with a choice: we make a grievous error if we try to return to some pre-crisis state. But if we have the courage to change, we can emerge from the crisis better than before. Francis then offers a brilliant, scathing critique of the systems and ideologies that conspired to produce the current crisis, from a global economy obsessed with profit and heedless of the people and environment it harms, to politicians who foment their people’s fear and use it to increase their own power at their people’s expense. He reminds us that Christians’ first duty is to

serve others, especially the poor and the marginalized, just as Jesus did. Finally, the Pope offers an inspiring and actionable blueprint for building a better world for all humanity by putting the poor and the planet at the heart of new thinking. For this plan, he draws not only on sacred sources, but on the latest findings from renowned scientists, economists, activists, and other thinkers. Yet rather than simply offer prescriptions, he shows how ordinary people acting together despite their differences can discover unforeseen possibilities. Along the way, he offers dozens of wise and surprising observations on the value of unconventional thinking, on why we must dramatically increase women's leadership in the Church and throughout society, on what he learned while scouring the streets of Buenos Aires with garbage-pickers, and much more. *Let Us Dream* is an epiphany, a call to arms, and a pleasure to read. It is Pope Francis at his most personal, profound and passionate. With this book and with open hearts, we can change the world.

From his first appearance on a Vatican balcony Pope Francis proved himself a Pope of Surprises. With a series of potent gestures, history's first Jesuit pope declared a mission to restore authenticity and integrity to a Catholic Church bedevilled by sex abuse and secrecy, intrigue and in-fighting, ambition and arrogance. He declared it should be 'a poor Church, for the poor'. But there is a hidden past to this modest man with the winning smile. Jorge Mario Bergoglio was previously a bitterly divisive figure. His decade as leader of Argentina's Jesuits left the religious order deeply split. And his behaviour during Argentina's Dirty War, when military death squads

snatched innocent people from the streets, raised serious questions – on which this book casts new light. Yet something dramatic then happened to Jorge Mario Bergoglio. He underwent an extraordinary transformation. After a time of exile he re-emerged having turned from a conservative authoritarian into a humble friend of the poor – and became Bishop of the Slums, making enemies among Argentina's political classes in the process. For Pope Francis – Untying the Knots, Paul Vallely travelled to Argentina and Rome to meet Bergoglio's intimates over the last four decades. His book charts a remarkable journey. It reveals what changed the man who was to become Pope Francis – from a reactionary into the revolutionary who is unnerving Rome's clerical careerists with the extent of his behind-the-scenes changes. In this perceptive portrait Paul Vallely offers both new evidence and penetrating insights into the kind of pope Francis could become.

Francis may help one understand why the Pope chose St. Francis as his namesake. Chesterton begins: "A sketch of St. Francis of Assisi in modern English may be written in one of three ways. Between these the writer must make his selection; ... First, he may deal with this great and most amazing man as a figure in secular history and a model of social virtues. ... Second, he may go to the opposite extreme, and decide, as it were, to be defiantly devotional. ... Third, he may try to do what I have tried to do here; ... I am here addressing the ordinary common man, sympathetic but sceptical, and I can only rather hazily hope that, by approaching the great saint's story through what is evidently picturesque and popular about it, I may at least leave the reader understanding a little more than he did before of the consistency of a complete character; ...."

Pope Francis has captured the imagination and admiration of millions of people of all faiths. He is frank, honest, humble, and lives the Gospel in his everyday life and reflects that in his teaching. What is not well known is that the Pope has been the successor of the Roman Empire for nearly 17 centuries. Even his title, Pontiff, come from the Latin title of the Roman Emperor, Pontifex Maximus. Over the years the trappings of imperial status has overtaken the papacy but Pope Francis has rejected much of that in symbol and substance. This book shows clearly how

Francis is doing that. The author begins with a brief history of the church followed by an overview of the teaching of the Second Vatican Council (1962-1965). Chapter 3 then focuses on Bergoglio and his life and how he is changing the papacy as Pope Francis. The last two chapters are summaries and quotes from his two letters: Joy of the Gospel and Care of our Common Home (Laudato Si).

THE STORY BEHIND THE SCREENPLAY OF THE TWO POPES, THE MAJOR MOTION PICTURE STARRING ANTHONY HOPKINS AND JONATHAN PRYCE From the Academy Award-nominated screenwriter of The Theory of Everything and Darkest Hour comes the fascinating and revealing tale of an unprecedented transfer of power, and of two very different men - who both happen to live in the Vatican. In February 2013, the arch-conservative Pope Benedict XVI made a startling announcement: he would resign, making him the first pope to willingly vacate his office in over 700 years. Reeling from the news, the College of Cardinals rushed to Rome to congregate in the Sistine Chapel to pick his successor. Their unlikely choice? Francis, the first non-European pope in 1,200 years, a one time tango club bouncer, a passionate soccer fan, a man with the common touch. Why did Benedict walk away at the height of power, knowing his successor might be someone whose views might undo his legacy? How did Francis - who used to ride the bus to work back in his native Buenos Aires - adjust to life as leader to a billion followers? If, as the Church teaches, the pope is infallible, how can two living popes who disagree on almost everything both be right? Having immersed himself in these men's lives

to write the screenplay for *The Two Popes*, Anthony McCarten masterfully weaves their stories into one gripping narrative. From Benedict and Francis's formative experiences in war-torn Germany and Argentina to the sexual abuse scandal that continues to rock the Church to its foundations, to the intrigue and the occasional comedy of life in the Vatican, *The Pope* glitters with the darker and the lighter details of one of the world's most opaque but significant institutions.

Bea Gormley tells the story of Pope Francis, known as the People's Pope, who has humbly said, "My people are poor and I am one of them." Ordained as Pope on March 13, 2013, Pope Francis became the 266th Pope of the Roman Catholic Church. Known worldwide for his great humility and approachability, he is the first citizen from the Americas, the first non-European, and first Jesuit priest to be named Pope. Gormley explores the pontif's early years, growing up as the eldest of five children of Italian immigrants in Argentina, working as a chemical technician before venturing in the priesthood as a Jesuit novice. He went from Bishop to Archbishop to Cardinal—and gained a reputation for personal humility, doctrinal conservatism, and a commitment to social justice, which stands to this day. Named Person of the Year by *Time* magazine in December 2013, Pope Francis remains outspoken in support of the world's poor and marginalized people, and he has been involved actively in areas of political diplomacy and environmental advocacy.
