The Next Generation Science Standards (NGSS) are K-12 science content standards. Standards set the expectations for what students should know and be able to do. The NGSS were developed by states to improve science education for all students. A goal for developing the NGSS was to create a set of research-based, up-to-date K-12 science standards.

~~Next Generation Science Standards~~

The ILS-Science are designed to help students acquire a deep understanding of core science and engineering content and ideas as well as experience applying that knowledge in any context. Students will demonstrate their scientific proficiency by engaging in practices that demonstrate the ability to apply scientific concepts.
