LIVE YOUR LIFE EXPECTANCY WITH CHRONIC LIVER DISEASE. Studies show that all wellness traditions except western medicine offer detoxification and toxic waste management as a means of natural healing. Using the principles of natural healing and detoxification, Dr. Alexis Carrel, a Nobel Prize winner kept chicken heart alive for 38 years. He believed that cells could live indefinitely and that the secret of life is to feed nutrients to cells and to saturate the cells with Oxygen. If you can't get nutrients into the cells and you don't remove the toxins, the cells will be poisoned by their own waste products. He had found the secret to ageless body and timeless health. Often overlooked is the pain associated with orthodox management of infective and degenerative liver diseases and the promise alternative remedies have to offer. The question often asked is which herbs and nutrients are crucial to my healing? How much should I take? What about the latest infomercial? And who can we believe with so many choices out there? **DID YOU KNOW THAT?** Thirty million Americans have liver disease. Liver disease is the fourth leading cause of death in America. Over 550,000 people die world wide from liver cancer each year—a preventable complication of liver disease. One in one hundred thousand Americans have a truly functional liver. Each year, 25,000 Americans die from liver cancer. Liver cirrhosis is the seventh leading cause of death in America. **YOU WILL DISCOVER HOW HERBAL REMEDIES, DETOXIFICATION AND LIVER GALL BLADDER FLUSH RESTORE LIVER HEALTH, LOWER BLOOD CHOLESTEROL AND HEAL FATTY LIVER** Prevent liver cancer Reduce hepatitis B and C viral loads Repair and regenerate liver cells and normalize liver enzymes Reverse compensated cirrhosis from contagious and alcoholic hepatitis. Stop progression of de-compensated cirrhosis

A holistic guide to living with hepatitis and liver disease. Detoxification & liver gallbladder flush. Reduce the risk of hepatitis C, Hepatitis B, liver cirrhosis and high blood pressure with alternative medicines. How to achieve sustained viral clearance with natural remedies.

Millions of people live with cirrhosis of the liver, a degenerative, complex, and often misunderstood condition in which liver cells are damaged and then replaced by scar tissue, impeding liver function. The disease is most commonly caused by excessive alcohol consumption, hepatitis, or complications from prescription drugs. The liver is the second largest organ in the body and it functions to get rid of harmful substances from the blood, processes foods and drinks that we eat amidst many other complex functions. Many other organs of the body rely on the liver's perfect well being to function accordingly. In the world today, the fatty liver is a subtle health condition which is the main cause of liver problems; which may lead to liver failure, cirrhosis (liver scarring), permanent liver damage, liver inflammation and in some cases ill-timed death. Taking care of the liver is very important and crucial, if you want to live a good, healthy and long life. GET YOUR COPY OF THIS BOOK TODAY

This clinical casebook provides a concise yet comprehensive state-of-the-art review of liver disease. Presented in a case-based format, each case features a scenario centered on a different variant of liver disease, with sections on case history, diagnosis/assessment, treatment, outcomes, alternative approaches, and clinical pearls. Diseases covered include drug-induced liver injury, acute hepatitis, chronic hepatitis, NAFLD, and cholangitis. Scenarios such as liver disease in pregnancy, elevated liver function tests, and liver transplants are also presented in the casebook. Written by experts in the field, Liver Disease: A Clinical Casebook is a valuable resource for clinicians and practitioners who treat patients with liver disease.

Fatty liver disease is the most common type of liver disease seen in the world today. Some people with fatty liver disease simply have excess fat in the liver. Although not normal, it's not serious if it doesn't lead to inflammation or damage. However, once there's a build-up of fat, the liver becomes vulnerable to injury. Others have what's called non-alcoholic steatohepatitis (NASH). NASH can lead to permanent liver damage and cirrhosis. Both types of non-alcoholic fatty liver disease (NAFLD) are becoming more common. Up to 20% of adults have either fatty liver or NASH. The most common causes of fatty liver disease are obesity and diabetes mellitus. Written by experts and based on the most current information available, this indispensable guide is for anyone living with fatty liver disease. And diet plays a major role in managing the condition, so 100 specially selected recipes are also included.

If you're suffering from hepatitis... If you don't know where to turn to enhance your body's healing response and your doctor's conventional treatments are not helping as much as you expected... Healing Hepatitis Naturally is an indispensable resource. Learn how: Herbal formulas support overall wellbeing, normalize liver enzymes and support viral clearance in cases of hepatitis. Systemic oral enzymes can aid the healing response among hepatitis C patients. Natural medicines can be combined with doctor's treatments to provide a more effective overall therapeutic program. This is probably the most popular little book on hepatitis today.
