Biographical H ermann Joseph Muller was born  
in New York City on December 21, 1890. His  
grandparents on his father's side were of  
artisan and professional background and,  
though at first Catholics, had emigrated from  
the Rhineland during the wave of reaction of  
1848 to seek the greater freedom of America.

Hermann Joseph Muller | American geneticist | Britannica

Hermann Joseph Muller (December 21, 1890 - April 5, 1967) was an American geneticist, educator, and Nobel laureate best known for his work on the physiological and genetic effects of radiation (mutagenesis), as well as his outspoken political beliefs.

Hermann Joseph Muller - Wikipedia

Hermann J. Muller was born in New York City on Dec. 21, 1890. His father died before Hermann was 10 years old, but he had already been imbued by his father with a sense of the grandeur of evolution and a sympathy for oppressed people. After graduation from Morris High School in the Bronx, he entered Columbia University.
