vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

"What is the ideal vehicle for special forces operations, for dangerous missions performed by small units of highly trained troops often working in enemy territory, behind enemy lines? And which vehicles have the worlds armies selected, adapted and developed since modern special forces established themselves as a key arm of the military during the Second World War? Pat Ware, in this
