students will find in Volume 2 the information they need to complete their study of subjects covered in Volume 1. Easy referencing ensures that the set (encapsulating the integrated nursing course) is of immediate and practical use. Volume 1 introduces certain basics of nursing theory and practice and includes a section dealing with nursing-related services. Volume 2 expands on the material in Volume 1, covering selected specialist subjects. The Manual of Nursing is an indispensable set, giving the student nurse and nurse practitioner a comprehensive overview of the diseases commonly encountered in a general hospital. Throughout, it emphasises the need to manage the patient as a bio-psycho-social being.

"The Auxiliary Nurse" covers the entire curriculum for learners preparing to write the South African Nursing Council (SANC) examination. Arranged in learning units, the book uses an outcomes based educational strategy to guide both learners and lecturers to essential information. This richly illustrated text has sections on the history of nursing, anatomy and physiology, basic nursing, food and nutrition, first aid and comprehensive health care, which has a strong emphasis on community nursing.
