Alice ' s life on the road, always a step ahead of the uncanny bad luck biting at their heels. But when Alice ' s grandmother, the reclusive author of a cult-classic book of pitch-dark fairy tales, dies alone on her estate, the Hazel Wood, Alice learns how bad her luck can really get: Her mother is stolen away—by a figure who claims to come from the Hinterland, the cruel supernatural world where her grandmother's stories are set. Alice's only lead is the message her mother left behind: “ Stay away from the Hazel Wood. ” Alice has long steered clear of her grandmother ' s cultish fans. But now she has no choice but to ally with classmate Ellery Finch, a Hinterland superfan who may have his own reasons for wanting to help her. To retrieve her mother, Alice must venture first to the Hazel Wood, then into the world where her grandmother's tales began—and where she might find out how her own story went so wrong. Don ' t

From the New York Times bestselling author of *The Love Hypothesis* comes a new steamy, STEM-inist novella... A scientist should never cohabit with her annoyingly hot nemesis—it leads to combustion. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... As an environmental engineer, Mara knows all about the delicate nature of ecosystems. They require balance. And leaving the thermostat alone. And not stealing someone else's food. And

other rules Liam, her detestable big-oil lawyer of a roommate, knows nothing about. Okay, sure, technically she 's the interloper. Liam was already entrenched in his aunt 's house like some glowering grumpy giant when Mara moved in, with his big muscles and kissable mouth just sitting there on the couch tempting respectable scientists to the dark side...but Helena was her mentor and Mara 's not about to move out and give up her inheritance without a fight. The problem is, living with someone means getting to know them. And the more Mara finds out about Liam, the harder it is to loathe him...and the easier it is to love him. To read Sadie and Hannah 's stories look for the novellas Stuck with You and Below Zero, coming soon from Berkley!

Hypothesis comes a new steamy, STEMInist novella... Nothing like a little rivalry between scientists to take love to the next level. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... Logically, Sadie knows that civil engineers are supposed to build bridges. However, as a woman of STEM she also understands that variables can change, and when you are stuck for hours in a tiny New York elevator with the man who broke your heart, you earn the right to burn that brawny, blond bridge to the ground. Erik can apologize all he wants, but to quote her rebel leader—she 'd just as soon kiss a Wookiee. Not even the most sophisticated of Sadie 's superstitious rituals could have predicted such a disastrous reunion.

But while she refuses to acknowledge the siren call of Erik ' s steely forearms or the way his voice softens when he offers her his sweater, Sadie can ' t help but wonder if there might be more layers to her cold-hearted nemesis than meet the eye. Maybe, possibly, even burned bridges can still be crossed.... To read Mara and Hannah ' s stories look for the novellas *Under One Roof*, available now, and *Below Zero*, coming soon from Berkley!

Three boys struggle to come to terms with the death of a friend in a drunk-driving auto accident in which all four were involved, in a story told through newspaper stories, diary entries, school announcements, telephone conversations, and classroom assignments.

From the New York Times bestselling author of *The Love Hypothesis* comes a new STEM-inist rom-com in which a scientist is forced to work on a project with her nemesis—with explosive results. Like an avenging, purple-haired Jedi bringing balance to the mansplained universe, Bee Kö nigswasser lives by a simple code: What would Marie Curie do? If NASA offered her the lead on a neuroengineering project—a literal dream come true after years scraping by on the crumbs of academia—Marie would accept without hesitation. Duh. But the mother of modern physics never had to co-lead with Levi Ward. Sure, Levi is attractive in a tall, dark, and piercing-eyes kind of way. And sure, he caught her in his powerfully corded arms like a romance novel hero when she accidentally damseled in distress on her first day in the lab. But Levi made his feelings toward Bee very clear in grad

school—archenemies work best employed in their own galaxies far, far away. Now, her equipment is missing, the staff is ignoring her, and Bee finds her floundering career in somewhat of a pickle. Perhaps it ' s her occipital cortex playing tricks on her, but Bee could swear she can see Levi softening into an ally, backing her plays, seconding her ideas...devouring her with those eyes. And the possibilities have all her neurons firing. But when it comes time to actually make a move and put her heart on the line, there ' s only one question that matters: What will Bee K ö nigswasser do?

Teenage Gerald, who has spent years protecting his fragile half-sister from their abusive father, faces the prospect of one final confrontation before the problem can be solved.

The New York Times bestselling sequel to Melissa Albert's beloved *The Hazel Wood*! In *The Night Country*, Alice Proserpine dives back into a menacing, mesmerizing world of dark fairy tales and hidden doors of *The Hazel Wood*. Follow her and Ellery Finch as they learn *The Hazel Wood* was just the beginning, and that worlds die not with a whimper, but a bang. With Finch's help, Alice escaped the Hinterland and her reclusive grandmother's dark legacy. Now she and the rest of the dregs of the fairy tale world have washed up in New York City, where Alice is trying to make a new, unmagical life. But something is stalking the Hinterland's survivors—and she suspects their deaths may have a darker purpose. Meanwhile, in the winking out world of the Hinterland, Finch seeks his own adventure, and—if he can find it—a way back home... Don't miss *Tales from the Hinterland*, coming January

Recovering from the recent suicide of her ex-boyfriend, senior class president Keisha Montgomery finds herself attracted to a dangerous, older man.

Newbery Medal-winner Kelly Barnhill's debut novel is an eerie tale of magic, friendship, and sacrifice. Enter a world where magic bubbles just below the surface. . . . When Jack is sent to Hazelwood, Iowa, to live with his strange aunt and uncle, he expects a summer of boredom. Little does he know that the people of Hazelwood have been waiting for him for quite a long time. When he arrives, he begins to make actual friends for the first time in his life-but the town bully beats him up and the richest man in town begins to plot

Jack's imminent, and hopefully painful, demise. It's up to Jack to figure out why suddenly everyone cares so much about him. Back home he was practically... invisible. *The Mostly True Story of Jack* is a stunning debut novel about things broken, things put back together, and finding a place to belong. "There's a dry wit and playfulness to Barnhill's writing that recalls Lemony Snicket and Blue Balliett...a delightfully unusual gem." --Los Angeles Times
