Testing & Commissioning. Blog; T & C; Leave a comment; Today I will talk about Testing & Commissioning (T & C) since it is the trend right now and will try my best to make it simple for easy understanding by engineers. Here ' s the deal, there are 9 key elements of successful commissioning, briefly, they are as follow; 1- Planning

~~Testing & Commissioning - Method Statement~~

Upon completion of static testing, dynamic testing can be undertaken, this is 'commissioning'. Commissioning is carried out to prove that the systems operate and perform to the design intent and specification. This work is extensive and normally commences by issuing a certificate permitting the installation to be made 'live', i.e. electrical power on.
